

Final Report

Vrinda Store Annual Sales Report – 2022

Objective

To analyze Vrinda Store's 2022 sales data and extract meaningful insights that can help improve sales performance and customer targeting in 2023.

Key Insights

1. Sales vs Orders Trend

- Sales peaked around **March–April**
- Gradual decline observed toward the end of the year
- Indicates seasonal demand pattern

2. Gender-wise Sales

- **Women contribute ~64% of total sales**
- **Men contribute ~36%**

Women are the dominant customer segment.

3. Order Status

- **92% orders successfully delivered**
- Very low:
 - Cancelled (~3%)
 - Returned (~3%)
 - Refunded (~2%)

Strong operational efficiency.

4. Top Performing States

Top contributors:

- **Maharashtra**
- **Karnataka**
- **Uttar Pradesh**

These states contribute ~35% of total sales.

5. Age & Gender Insights

- **Adult age group (30–49 years)** contributes ~50% of orders

- Women dominate across all age groups

Core target audience = Adult women.

6. Sales Channels Contribution

- **Amazon (~35%) – Highest**
- **Myntra (~23%)**
- **Flipkart (~22%)**

Top 3 platforms contribute ~80% of sales.

Business Conclusions

Vrinda Store's growth is heavily dependent on:

- Female customers
- Adult age group (30–49 years)
- Top-performing states
- Major e-commerce platforms

Recommendations (Action Plan)

Customer Targeting

Focus on:

- Women
- Age group: 30–49 years

Regional Strategy

Increase marketing spend in:

- Maharashtra
- Karnataka
- Uttar Pradesh

Channel Optimization

Prioritize:

- Amazon
- Flipkart
- Myntra

Run:

- Platform-specific ads
- Discount campaigns

Seasonal Strategy

- Boost inventory & marketing before peak months (March–April)
- Plan offers during low-sales months

Snapshot of Final Dashboard of the Store

Final Conclusion

If Vrinda Store strategically targets **adult women customers in top states via high-performing channels**, it can significantly increase revenue and achieve strong sales growth in 2023.
